SUMMARY

Founding AI engineer with 5+ years in software engineering, the last 3 years shipping agentic LLM systems to production. Leads tech and engineering at OneStop AI, owning the WhatsApp, web, and iOS/Android investing platform end to end with AI-accelerated development; previously led 3 engineers at Canvas AI on a multi-tenant agent platform and SugarFit's diabetes-care assistant.

SKILLS

Languages & Frameworks: Python, TypeScript, SQL, FastAPI, Pydantic AI, PyTorch, Next.js, Expo/React Native, SQLAlchemy, Drizzle
AI/ML: Multi-Agent Systems, MCP, LLM-as-judge Evals, RAG/GraphRAG, QLoRA Fine-tuning, Prompt Caching, Model Routing
Data & Infra: PostgreSQL, ClickHouse, Redis, MongoDB, Kafka, Debezium, Airflow, Docker, Kubernetes/GKE, GitHub Actions CI/CD
Cloud & Observability: AWS (ECS, SQS, S3, RDS, CDK), GCP/Vertex AI, Azure AI, Datadog, Sentry, PostHog

EXPERIENCE

OneStop AI — Founding Software Engineer *Sep 2026 – Present | Remote*

- Lead engineer for Jarvis/IRA, an agentic AI investing platform on WhatsApp, web (Next.js), and iOS/Android (Expo), architected end to end: Python/FastAPI agent backend with durable execution on SQS FIFO, PostgreSQL inbox/outbox, and a singleton job scheduler on AWS ECS via CDK; cross-provider model routing with per-task backups, prompt caching, LLM-as-judge evals, and latency/cost telemetry; CI/CD with staging-on-merge, production deploys, and OTA plus store mobile releases.
- Built the agent layer: a structured user memory card maintained by a single-run memory builder with session lookback tools, mid-session context compaction and cross-session summaries, on-demand skills with a deterministic multi-factor scoring engine, multimodal portfolio intake (CSV/image/PDF), resumable streaming dashboards, WhatsApp-to-app handoffs with model-written recaps, and scheduled proactive investment alerts.

Canvas AI (formerly Apperture) — Software Developer *Nov 2023 – Aug 2026 | Bengaluru, India*

- Led 3 engineers delivering SugarFit's diabetes-care AI assistant for thousands of daily users: RAG to GraphRAG to QLoRA fine-tuning on the SugarFit corpus, a single agent to a multi-agent system on Agno (Gemini 2.5 Pro/Flash), and Azure AI/Prompt Flow to Vertex AI; shipped meal planning, symptom triage, CGM analysis, PDF lab-report extraction, and a clinician copilot.
- Built Gemini 2.5 Flash vision meal logging at 10K+ images/day, p90 ~6s, lifting in-app meal-logging adoption from 24% to 38%.
- Replicated CGMformer, a hybrid Transformer-LSTM glucose forecaster: 94% of 2h-ahead predictions in Clarke Error Grid Zone A.
- Built Apperture's datamart workbooks with scheduled queries, threshold alerts, clickstream SDK ingestion, 8+ connectors (GA, Mixpanel, Amplitude, PostHog) plus Postgres/MySQL CDC via Debezium and Kafka ingesting tens of millions of events/day, and a WhatsApp Text-to-SQL BI agent at 90%+ NL-to-SQL accuracy on hundreds of daily queries.

Parallel — Backend Engineer *Jul 2022 – Oct 2023 | Bengaluru, India*

- Progressed from Product Analyst to Backend Engineer on Apperture's founding team; built the B2B product-analytics platform's ClickHouse engines for funnels, retention, cohorts, segmentation, and custom metrics on FastAPI and Next.js.

Quantile Analytics — Quantitative Analyst *Jul 2021 – Jul 2022 | Bengaluru, India*

- Built automated pipelines tracking 20+ global indices to generate rebalancing signals for systematic equity strategies, an NLP parser extracting float and share data from SEC filings, and exchange-data scrapers for index-rebalancing models.

EDUCATION

Indian Institute of Technology, Indore — B.Tech, Mechanical Engineering *2017 – 2021 | CGPA 7.52/10*

Narayana Junior College, Hyderabad — Intermediate (Class XII), Telangana Board *2015 – 2017 | 97.3%*

Neeraj Public School, Rajnandgaon — High School (Class X), CBSE *2015 | CGPA 9.8/10*

ACHIEVEMENTS

- **JEE Advanced 2017:** AIR 4,473 (215/366)
- **JEE Main 2017:** AIR 3,289 (237/360), top 0.27% of 1.2M candidates
- **CAT 2021:** 99.19 percentile
- **Inter IIT Tech Meet 2019:** Bronze Medal, BitGrit Data Science Contest, IIT Roorkee
